

The Peninsula International School Australia <http://www.peninsula.edu.my> is set to open in Kuala Lumpur, Malaysia in January 2018, offering Australia's Victorian Curriculum based Primary and Secondary education for students from Year 1 (Age 7) to Year 12 (Age 18).

Our curriculum is delivered through partnerships with the prestigious Peninsula Grammar of Mt Eliza, Victoria, Australia. <http://www.peninsulagrammar.vic.edu.au> Peninsula Grammar provides academic support, course structure and support materials, along with training and mentoring programs for teachers while we adhere to the highest standards of education associated with Peninsula Grammar's long tradition of academic excellence.

Peninsula International School Australia will allow students in Malaysia to study for an internationally recognised qualification without having to leave their home. Our students can develop a high level of fluency in English and a strong understanding of the western education system. This ensures that they are well prepared for study at western universities in the future.

Opening: Head of Mathematics July 2019 or sooner

Peninsula International School, Australia, Malaysia Campus Setia Alam is seeking a qualified candidate for Head of Mathematics for the second semester of the 2019-2020 school year.

Peninsula International teachers are knowledgeable, passionate, and believe in transforming education. As part of a uniquely collaborative and professional teaching community, Peninsula International teachers motivate students to reach their highest potential, while also elevating their own skills through peer collaboration and a culture where learning is of the greatest importance.

As a VCE Head of Mathematics, you will build upon foundations laid in the Middle grades to give students in Years 10,11 and 12 a more in-depth understanding of Mathematics and prepare them for the VCE . A full Job Description will be made available to those candidates invited for an interview.

Please send a CV and covering letter outlining why you want to apply for the role at Peninsula International School. Please follow the application process, making sure you address the focus areas for this role, in your covering letter.

Qualifications; A Bachelor's Degree and or Masters Degree in Mathematics and Qualified teaching status along with the ability to teach at examination level. In addition, a minimum three years teaching experience as a HOD is required.

Preferred: A high level of educational attainment, the successful applicant will demonstrate strong communication skills in teaching ideas, texts, and concepts with precision and confidence. Must be open to new ideas in teaching.

Please send your CV and covering letter to kamaladevi.naidu@peninsula.edu.my or visit www.peninsula.edu.my

*Only those candidates who are successful will be invited for an initial skype interview. We thank you for your time and effort in submitting an application.
